

Storage Containers

Our Storage Containers are strong, wind and water tight constructed from a heavy grade steel. Ideal for freight, shipping and storage with the ability to store almost anything that you require. They are a fully lockable unit, keeping your goods safe and secure. These units come in 10', 20' and 40' in size.

These units are tough and can be used for a variety of purposes and the strong steel flooring is great for outback areas with white ant issues for that full protection. Due to the strong construction they are perfect to convert into workshops. These units come in 20' and 40' in size.

Our Hicube Containers are highly adaptable which can be used as a standard 2 pallet-wide transport container or can be used for bulk products.

RJKM Containers are available for hire or purchase, whatever your needs we can find a container to suit, either used or new builds custom to your business with logo.
