### Construction

The Vault Box is constructed from a steel frame with strong Fibre Reinforced Plastic (FRP) insulated panels which provides a strong, secure, fully wind and water tight container, that keeps your goods safe from the elements, even the scorching Australian climate and hot temperatures your warehouse can reach. Storacube can also make a great alternative to a shed on your property because of these features.

The Vault Box has e-track railing for ease of adding in shelving for improved usability. Its user-friendly door-lock is secure, ensuring the safety of stored goods.
